

**FINAL YEAR MEDICAL STUDENTS
PAEDIATRIC TUTORIAL – 15.07.2015**

Batch 22

Tutorial - 12

A 3 year old boy presented to the paediatric ward with a history of chronic cough for 2 months duration. He does not have a past history of bronchial asthma. Further enquiry revealed his 72 year old grandfather is on treatment for a chronic cough.

- A) What other important points in the history and examination will help you to arrive at a diagnosis?

- B) Discuss the investigations you would request.

- C) Discuss the management of this child.

Please note that the students who do not come prepared for the tutorial will not be allowed to participate at the tutorial and they will be marked absent.
