

**FINAL YEAR MEDICAL STUDENTS
PAEDIATRIC TUTORIAL – 18.03.2015**

Batch 22

Tutorial - 05

1. Discuss the advantages of exclusive breast feeding.

2. List the common feeding problems encountered during 1st month of the baby. Indicate how you would solve them.

3. How would you advise a mother of a 6-month old infant, on complementary feeding?

Please note that the students who do not come prepared for the tutorial will not be allowed to participate at the tutorial and they will be marked absent.
