¹ As Sri Lanka is HIV low prevalence country HIV prevalence among the Antenatal Population is not screened for HIV

² As Sri Lanka is a low prevalence county this indicator is not very relevant to Sri Lanka

³ The data on Malaria prevalence is not available in Sri Lanka. The total number of Malaria cases reported in Sri Lanka in 2001 was 27,791 and total number of deaths reported was 27.

⁴ New indicator for Sri Lanka. Data on this indicator is not yet available.

⁵ The data on the prevalence of TB in Sri Lanka is not available. The annual incidence of Tuberculosis in 2001 was 12,421 and the number of deaths reported was 689.

⁶ The data on solid fuel was not available in Sri Lanka. The reduction of use of solid fuel is targeted through increasing the fuel efficacy.

⁷ Global target is to halve between 1990 and 2015, the proportion of people who suffer form hunger. A value for 1990 is not available. The target for Sri Lanka by the year 2015 has to be decided.

* Global targets.
