

## **STUDENT BENEFIT FUND**

### **Guidelines and Application for Stethoscopes/ Tabs Grant**

#### **General Guidelines**

- Applications (Annexure 1) are called from the students through an open web advertisement on the faculty website or using a Google form from the respective batches.
- Students must submit a completed application with supporting documents to the Student Benefit Fund Committee on or before the deadline.
- Students must appear for an interview with at least two members of the committee in order to be prioritized for scholarships.
- Once the selection of students is completed, a priority list is made of the most deserving students.
- **As both the tab and the stethoscope will not be granted to a single student**, each student can only apply for one item based on their need.
- **The students chosen to receive the stethoscope should contribute Rs.10,000/=**, with the remainder covered by the faculty.
- **The student chosen to receive tabs should pay at least 20% of the tab's cost. Faculty will pay 80% of the tab, up to a maximum of EIGHTY THOUSAND RUPEES (Rs. 80,000/=).**
- The student is responsible for selecting and purchasing the tab from the company directly. Students must pay for the tab in advance to the company and turn in the advance payment receipt to the Student Benefit Fund committee. Contributions from faculty will be paid directly to the company. Once all payments have been made and the tab has been purchased, the student should hand over the final invoices to the committee and show them the tab.
- The student is liable for any after-sales repairs to the tab, and the faculty will not incur any additional costs.
- All disciplinary rules and regulations applicable to all undergraduate students of the Faculty of Medicine will be applicable to students receiving benefits from the scholarship fund.
- If found guilty of breaking any rules of the University or Faculty of Medicine by a disciplinary committee, they would forfeit all benefits of the scholarship fund.
